

Entry Requirements:

Holy Family Sixth Form entry requirements apply. You will also need two Grade 4's or above in GCSE Combined Science.

The Learning:

The AQA GCE Applied Science course will allow you to study how science is applied in many different types of professions and industries. Studying this qualification will enable learners to develop their knowledge and understanding of scientific principles, as well as those scientific practical skills recognised by higher education institutions and employers to be most important. The qualification also offers learners an opportunity to develop transferable skills such as problem solving, research and communication as part of their applied learning. The AQA Level 3 Extended Certificate in Applied Science will allow learners the opportunity to learn and understand the core principles and practical applications that underpin applied science. The qualification's synoptic focus will ensure that learning is coherent across all three units. The learner will undertake a programme of assessment designed to measure their knowledge and understanding of applied science as well as its practical application.

What direction this course might take you in:

This qualification is supported by a range of universities, and taken alongside other qualifications it can fulfil the entry requirements for a number of Science-related higher education courses, including biomedical, forensic and sports Science, as well as nursing.
