SMSC policy

Introduction

The Holy Family School is a Catholic school. Our spirit and ethos grow out of our Catholic foundation which directs and enhances all that we do. Our foremost task is to assist parents, the prime educators of their children, in the nurture of their families.

Our Admissions Policy after providing for vulnerable children in various categories does give priority to the children of Catholic families and then to children of other backgrounds who have a wish to be educated in a religious environment.

It is therefore our task to nurture all the members of the school (Staff & student) taking into account age, aptitude and background (including religious background). This is a task that we welcome for the spirit and ethos of the school is enhanced by the variety of beliefs and views that its members hold. We are conscious that this is a circle to be squared for the Catholic foundation of the school assumes a potent Catholicity while the interreligious (and non-religious) collective membership call us in a slightly different direction.

For this reason the Chaplaincy Team take as their patron St Oscar Romero who walked a similar line, in different circumstances, between politics and church life which cost him respect from within the Church as well as his life.

So, for instance, while Collective Worship reflects Catholic leadership, efforts are made to ensure that it is genuinely collective, reflective of, and, of use to, all members of the school

It is in that spirit that this document is written. It makes claim for SMSC education in a clear and simple manner. It is put into action while hearing other competing claims from within the collective especially from the Catholic Life Team

Mission statement

This policy is carried out within the context and spirit of the school's vision for excellence. It supports and reinforces the aims of The Holy Family Catholic school, valuing all students equally and as individuals. All staff work together to create a happy, challenging, stimulating and caring environment in which students can enjoy their time at school and celebrate their achievement.

The school strives to build a community which encourages all its members to develop a healthy respect for each other. In addition, we provide a happy, stimulating and caring environment where there are opportunities, encouragement and stimuli to develop each student to her full potential.

This policy relates to the whole life of the school and its role in promoting spiritual, moral, social and cultural development (SMSC) by the example set by adults in the school and the quality of relationships they espouse.

1. Spiritual Development

Aim

This area relates to the beliefs, feelings and emotions through which students acquire worthwhile insights into their own lives. All areas of the curriculum may contribute to spiritual development. Although education and spiritual development are not synonymous, school experiences can make a significant contribution to spiritual development.

Objectives

At The Holy Family Catholic school the students will be provided with opportunities to develop their spiritual understanding by experiencing a curriculum which will:

- Develop their self-esteem, self-knowledge and belief in themselves;
- Allow them to develop a range of personal values and beliefs based on a sense of curiosity and respect towards their own and other beliefs;
- Explore the spiritual values of others through stories, drama, music, art and religious education to name just a few;
- Allow them to express themselves in a variety of ways and give them time to reflect on their own experiences;
- Allow them to understand, express, use and control feelings and emotions as well as encouraging empathy in terms of relationships with others;

In Practice at The Holy Family Catholic school, this is delivered through:

1. A Religious study programme which develops self-esteem and knowledge and an ability to reflect on and develop individuals' own spiritual values;
2. A PSHE programme which utilises form tutors to involve all years in opportunities for themed discussion, in order to develop awareness of core values.
3. An assembly programme and daily prayer to address spiritual matters in an open but broadly Christian context, with inspirational material drawn from a variety of sources.
4. A student support structure that is focused on learning and providing appropriate information advice and guidance for students as well as opportunities to explore pathways of development;
5. Educational enrichment trips and visiting speakers provide students with a range of experiences, which may promote a sense of awe and wonder about the world;
6. A reflective approach to learning through formative assessment techniques – students having ownership and understanding of where they are, where they need to get to and how they are to do it;
7. A rewards system developing student self-esteem through certificates, postcards home and awards at all levels;

8. Displays of student work bring a sense of pride in the work students produce and therefore a sense of expressing the talents of the individual.
9. A programme of spiritual retreats.
10. PSHE programme for Years 7-13.
11. A developing character education structure based on The Virtues.
