

Awakening Minds in Drama

At The Holy Family Catholic School our intent in Drama is to develop skills which allow students to perceptively and artistically explore the world around them as well as developing personal confidence. Our vision in for Drama to be a subject which inspires students to question things around them. It should give them the tools to be respectfully and constructively critical of the Arts and indeed the wider world. This skill begins as a seed in Year 7 flourishing throughout their time throughout KS3 and beyond within GCSE and A-Level.

Achieving Dreams in Drama

Drama is always a creative and collaborative and experience. Drama allows us to explore the world around us, understand the ideas and opinions of others as well as developing our own independence in terms of thinking and our stand alone opinions. Drama should allow students to develop confidence in their own ability as critical thinkers and allow them to feel comfortable in a performance space. Through studying Drama students learn to communicate ideas, explore social issues and moral dilemmas, and express their own thoughts and opinions. The practical skills learned in Drama help students to grow in confidence and command an audience.

Serving Others in

We believe students should be allowed to take ownership of their creativity whilst being given a safe structure and space in which to do so through the exploration of various topics and texts. Nothing in Drama is deemed 'wrong' or 'incorrect' and students are given tools to express justification of their workings.
