

Awakening Minds in History

Inspire all students, regardless of background, to ask questions about our History, challenging themselves to evaluate different opinions so that they can make informed decisions and shape their own futures.

Achieving Dreams in History

Ensure every student, regardless of starting point, builds a body of key knowledge and skills that enable them to achieve well at KS3, GCSE and A Level so that they can aspire to achieve their dreams and will always be able to make choices in their future careers.

Serving Others in History

Create a culture of support, where all students feel confident to contribute during lessons, where all learn from the participation of others and where students respect, encourage and support each other to become enthusiastic and engaged learners.
