

Awakening Minds in Maths

Inspire all students, regardless of background, to see the wonder of Mathematics and mathematical ideas. Equip students with the tools to solve problems and model real situations using Mathematics. Encourage students to question and analyse information and work things out for themselves so they can make informed decisions.

Achieving Dreams in Maths

Ensure every student, regardless of starting point, has the opportunity to build a body of key knowledge and skills, lead to success at every Key Stage and giving them the opportunity to make choices in their future careers.

Serving Others in Maths

Encourage a culture where all students feel confident and happy to share their ideas and answers; where any mistakes are welcomed as an opportunity to further everyone's learning; where students and staff respect each other and their environment.
