

**Entry Requirements:**

Holy Family Sixth Form entry requirements apply. In addition you will need a level 2 ICT qualification.

**The Learning:**

Cambridge Extended Certificate Information Technology offer a flexible range of qualifications that can be studied alongside other level 3 qualifications such as A levels or other BTEC Nationals as part of a larger programme of study, or as the main focus of study. All sizes attract UCAS points and are widely recognised by universities and employers.

They provide:

- Flexibility for your students to progress to larger-size qualifications or specialise
- Opportunities for students to showcase their skills through practical assessments
- The underpinning knowledge and skills needed to meet industry requirements
- The transferable and high-order skills so highly regarded by HE and employers
- Applied General qualifications with clear purpose and progression to higher education or employment.

Equivalent in size to 1 A level Applied General

TOTAL: 5 UNITS

1. Fundamentals of IT Written exam 2. Global Information 3. Cyber Security4. Project Management 5. Internet of Everything

**What direction this course might take you in:**

You will also develop professional, personal and social skills through interaction with peers, stakeholders and clients, as well as theoretical knowledge and understanding to underpin these skills. These support the transferable skills required by universities and employers such as communication, problem solving, time management, research and analytical skills.

These skills could allow you to go to university or employment in the ICT sector.
