| Year 10 – Half term 5 R085 Creating a multipage website

What?
When?
Why?	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6
Weeks 1 - 6	**R085 Creating a multipage website**

Lessons 1 and 2

Students will explain any legal issues and restrictions that need to be considered when creating their multipage website.

Lesson 3

Students will start to obtain and store the assets needed for their website. | Lesson 1

Students will check the properties of the assets to ensure suitability for use in their website.

Lesson 2

Students will create an appropriate folder structure.

Lesson 3

Students will start to create a master page as a template for their final website pages. | Lesson 1

Continued…students will start to create a master page as a template for their final website pages.

Lessons 2 and 3

Students will start combine the site master page and assets to create the final multipage website – they will use a range of tools and techniques in the web authoring software. | Lessons 1 – 3

Continued… students will start combine the site master page and assets to create the final multipage website – they will use a range of tools and techniques in the web authoring software. | Lessons 1 – 3

Students will create the navigation system for the multipage website. | Lesson 1

Students will save and publish the multipage website, so it is viewable on a standard browser as required by the client.

Lessons 2 and 3

Students will test the multipage website for functionality and complete all associated evidence. |
