

Awakening Minds in PSHE

Through a safe learning environment and creative curriculum, we place a high emphasis on self-care, health and wellbeing, as well as celebrating diversity and equality. Students are encouraged through the virtues of reflection and respect to develop awareness, understanding and love of themselves and others.

Achieving Dreams in PSHE

Throughout the core themes of PSHE, students become aware of the world beyond school. Students are encouraged to develop their cultural capital and build the skills and attributes needed to succeed and thrive as individuals and valued members of society.

Serving Others in PSHE

PSHE helps students build empathy and understanding of others, promoting community cohesion. Students learn about their own rights and responsibilities as a member of society, as well as British values, and how to make conscious choices and positive contributions to the world at local, national and global level.
