

## Awakening Minds in Maths

We aim to inspire you with a mathematics curriculum that is rich in skills and knowledge, but also ignites curiosity and prepares you well for everyday life and future employment. You will become fluent in the fundamentals of mathematics, through varied and frequent practice with increasingly complex problems over time. You will develop conceptual understanding and the ability to recall and apply knowledge rapidly and accurately.

## Achieving Dreams in Maths

We want you to learn in an environment which does not limit ambitions. You will develop new skills through a variety of interesting contexts to foster enjoyment, developing a rich, deep and secure subject knowledge. Our assessment and feedback will help you understand what you are doing well and how you need to improve.

## Serving Others in Maths

You will work collaboratively and support each other within the classroom. We want you to see mistakes as a learning opportunity and develop resilience in your learning. This can only happen with mutual tolerance and respect. We aim to help you improve your spiritual, social, moral and cultural understanding to develop confidence in financial and numerical understanding of the wider world.
