KS3 Computing – Year 9

Learning Intentions Summer Term 2   2024-2025

		LESSON 1
WEEK 33 wc 2nd June		Describe the difference between 'data-driven' and 'rule-based' approaches to application development
WEEK 34 wc 9th June		Define machine learning's relationship to Artificial intelligence
WEEK 35 wc 16th June		Describe how classification can be solved using supervised learning
WEEK 36 wc 23rd June		Describe the impact of data on the accuracy of a machine learning (ML) model
WEEK 37 wc 30th June		Explain how bias can influence the predictions generated by an ML model
WEEK 38 wc 7th July		Describe how decision trees are used to build a classification ML model
WEEK 39 wc 14th July		Describe the stages of the AI project lifecycle
